

Reduce Spending for Self-Insured Employers

Drive Value-Based Care Outcomes Through Medication Adherence-Focused Engagement Strategies

Optimize™ is a proactive intelligent clinical workflow that enables employers to guide highly specific patient interventions and provider engagement. Using dozens of data sources, the offering helps reduce unnecessary medical costs related to drug therapy problems (DTP). This offering is powered by Adhere™ Platform analytics that integrate real-time input with national benchmark data and our analytics-guided clinical decision support software. This advanced data-driven solution has more than a decade of quantifiable outcomes bolstered by fully guaranteed program performance.

About AdhereHealth™

AdhereHealth™ is a technology solutions leader supporting health plans, self-insured employers and other risk-bearing entities for medication adherence insights and healthcare outcomes. Our innovative focus on medication adherence enables a unique pathway to achieve outcomes for population health. Adhere™ Platform touches nearly **30 million** patients through its disruptive technologies, engagement services and home-delivered pharmacy. AdhereHealth™ addresses the challenge of half a trillion dollars of annual unnecessary medical costs due to medication adherence issues, representing **16%** of the United States healthcare spend. Headquartered in the Nashville suburb of Franklin, Tennessee, AdhereHealth™ has been in business for more than a decade. We employ hundreds of dedicated professionals across the nation who are focused on the mission of providing solutions that improve patient adherence.

PATIENT SUCCESS STORY: Mrs. Roberts

Mrs. Roberts is 67 and her muscle pain was being treated with methocarbamol, which increases the risk of falling for patients 65 or older. AdhereHealth analytics identified tizanidine as a safer alternative, alerting our nurse to discuss the gap with Mrs. Roberts' clinician prompting a medication change.
