Medication Optimization Case Study Example

The Adhere Platform drove **1,678 Drug Therapy Problem (DTP) resolutions** that netted **\$3.71M** in year-over-year total claims expense reductions and a **5:1 ROI**.

Problem

- 10k member population with high instances of asthma-related emergency room visits and complications associated with diabetes and cardiac issues
- Prevalence of avoidable events due to suboptimal medication utilization patterns

Evaluation

- Program evaluation of successful interventions in population by separating each DTP into condition cohorts

Solution

- Identified DTP's for high-risk members
- Systematic provider outreach workflow via fax and peer-to-peer clinician consults to address DTP's

Impact

- Overall population experienced a \$3.7M net decrease in year-over-year claims expense

About AdhereHealth™

AdhereHealth™ is a technology solutions leader supporting health plans, self-insured employers and other risk-bearing entities for medication adherence insights and healthcare outcomes. Our innovative focus on medication adherence enables a unique pathway to achieve outcomes for population health. Adhere Platform touches nearly **30 million** patients through its disruptive technologies, engagement services and home-delivered pharmacy. AdhereHealth™ addresses the challenge of half a trillion dollars of annual unnecessary medical costs due to medication adherence issues, representing **16%** of the United States healthcare spend. Headquartered in the Nashville suburb of Franklin, Tennessee, AdhereHealth™ has been in business for more than a decade. We employ hundreds of dedicated professionals across the nation who are focused on the mission of providing solutions that improve patient adherence.
