ADHERENCE RESOLVED

## *Targeted Interventions to Improve Vaccination Rates and Chronic Condition Outcomes*

### Value-Based Care Optimization

---

Using evidence-based guidelines, AdhereHealth aims to improve healthcare outcomes by addressing gaps in preventive vaccinations and chronic condition medications. The Adhere Platform<sup>™</sup>'s targeting analytics identify vaccine and chronic condition gaps and create omni-channel educational outreach to patients and their providers to drive diagnosis and treatment.

### Targeted Engagement by Vaccine and Chronic Condition

---

#### Identification

Analytics identify target members based on claims data consistent with evidence-based guidelines

#### Member Educational Outreach

Targeted members receive disease awareness information on existing or at-risk conditions and are encouraged to discuss with their provider

#### Provider Engagement

Targeted providers receive information highlighting patient care gaps and are encouraged to follow up with their patients to discuss treatment options

### Key Benefits

---

Early identification of targeted gaps in care

Reduced patient admissions or Emergency Department Visits

Reduced readmissions and medical costs

Reduced overall cost of care

Improved vaccination rates for engaged members

Free engagement and prevention program for health plans and members
