ADHERENCE RESOLVED

## Targeted Interventions to Improve Chronic Condition Outcomes

### Value-Based Care Optimization

Using evidence-based guidelines, AdhereHealth improves healthcare outcomes by addressing gaps in chronic condition medications. Adhere Platform<sup>™</sup> analytics identify chronic condition gaps and create omni-channel educational outreach to patients and their providers to drive appropriate diagnosis and treatment.

### Targeted Engagement by Chronic Condition

#### Identification

Analytics identify target members based on claims data consistent with evidence-based guidelines

#### Member Educational Outreach

Targeted members receive disease awareness information on existing or at-risk conditions and are encouraged to discuss with their provider

#### Provider Engagement

Targeted providers receive information highlighting patient care gaps and are encouraged to follow up with their patients to discuss treatment options

### Key Benefits

Early identification of targeted gaps in care

Overcome SDOH barriers to improve quality of life

Reduced readmissions and medical costs

Improve HEDIS rates

Improve chronic condition outcomes

Free engagement and prevention program for health plans and members
